LAWRENCE G. REBMAN
DEPARTMENT DIRECTOR

January 19, 2011

The Honorable Jeremiah W. (Jay) Nixon
Governor of Missouri
State Capitol, Room 218
Jefferson City, MO 65101

Dear Governor Nixon:

I am pleased to submit the proposed fiscal year 2012 budget for the Missouri Department of Labor and Industrial Relations. As identified in the Department's Vision and Mission, it will remain dedicated to promoting and protecting labor and industry with the vision of employees and businesses succeeding together in safe and healthy workplaces free from unlawful discrimination.

After reviewing core resources and operations, we reduced our request by \$58,838 from FY 2011 appropriations. In addition, we have reallocated core resources within and between various budgeting organizations. The core reallocations allow the Department to comply with its federal cost allocation plans and reallocate appropriation authority to needed areas.

The Department's FY 2012 budget request includes open-ended appropriations for the Divisions of Labor Standards, Workers' Compensation and Employment Security; the Director and Staff and the Missouri Commission on Human Rights. The Department is requesting open-ended appropriations for its federal funds, allowing it to expend all federal funds which might become available. The Department is also requesting open-ended appropriations for its benefit payment appropriations to assure uninterrupted payments to claimants.

We welcome the opportunity to discuss these budget issues with you in further detail. Please feel free to contact me at (573) 751-3978 should you have questions or need additional information.

Sincerely,

A handwritten signature in black ink, appearing to read "L. Rebman".

LAWRENCE G. REBMAN
Director

2. CORE DESCRIPTION

The Director and Staff provides support functions to the various departmental agencies; including administrative services, financial management, human resources, legal services, public information, strategic planning and research and analysis. The cost of these administrative functions is shared among the programs within the department that benefit from these services through the Administrative Fund Transfer.

The DOLIR Administrative Fund is classified as a federal fund; however, funding sources via transfer are: General Revenue \$393,599 (3.66%); Workers' Comp \$2,071,173 (17.48%); Special Employment Security \$100,000 (0.93%); and Federal funds \$8,390,980 (77.93%). The Administrative Fund Transfer Core Requests appear later in the Budget Request. Amounts transferred include monies to pay salaries, employee fringe benefits and expense & equipment of ITSD staff paid from this fund but budgeted in Office of Administration (OA). In addition, this fund pays to OA, Facilities Management, Design and Construction fees for the operation of the state-owned buildings, which appear in a HB 13.

PROGRAM DESCRIPTION

Department of Labor and Industrial Relations

Program Name: Administration

Program is found in the following core budget(s): Director and Staff

1. What does this program do?

Administration provides the following support functions to six agencies: administrative services (procurement, forms and supply), financial management, human resources, legal services, public information, legislative affairs and research and analysis.

The cost of these administrative functions is shared among the programs within the department that benefit from these services. As a result, fiscal year 2011 is cost allocated as follows: General Revenue, (3.66%); Workers' Compensation, (17.48%); Special Employment Security, (0.93%); and federal (77.93%). The Department also transfers monies from the programs that receive direct services from the administrative sections, from these same funding sources.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

An administrative fund was created under Chapter 286 which allows the Department of Labor and Industrial Relations to expend funds which relate to the administration of the laws under the jurisdiction of the Department.

3. Are there federal matching requirements? If yes, please explain.

While the structure of Administration is not required, certain functions such as mailing, accounting, and so forth are mandated under programs within the Department.

4. Is this a federally mandated program? If yes, please explain.

No.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

2. CORE DESCRIPTION

The Director and Staff pays its Personal Services and Expense and Equipment expenditures from the Department of Labor and Industrial Relations (DOLIR) Administrative Fund. In compliance with its federal cost allocation plan, the Department transfers monies into this fund from its four funding sources: General Revenue, Federal, Workers' Compensation and Special Employment Security funds. By using the DOLIR Administrative Fund, the Department complies with the cost allocation requirements more efficiently in payment and payroll processing and procurement. In fact, the DOLIR Administrative Fund reduces data entry by at least 67%. Fiscal, payroll, and procurement staff can input one-line accounting distributions rather than three-line entries, which were entered when costs were allocated over three funds for each transaction.

The transfers include amounts necessary to meet required fringe benefit transfers for the fund, which appear in HB 5.

2. CORE DESCRIPTION

The OA, ITSD DOLIR pays the majority of its Personal Services and some of its Expense and Equipment expenditures from the Department of Labor and Industrial Relations (DOLIR) Administrative Fund. OA ITSD Personal Services, Fringe Benefit and Expense & Equipment appropriations from the DOLIR Administrative Fund are expected to be approximately \$5,430,000. In compliance with its federal cost allocation plan, the Department transfers monies into this fund from three funding sources: General Revenue, Federal and Workers' Compensation funds. By using the DOLIR Administrative Fund, the Department complies with the cost allocation requirements more efficiently.

The transfers include amounts necessary to meet required OA ITSD fringe benefit transfers for the fund, which appear in HB 5.

In addition, OA Facilities Management, Design & Construction charges the DOLIR Administrative Fund directly for state-owned building operational costs. The Department expects charges of approximately \$200,000 in FY 2012.

Program is found in the following core budget(s): Division of Labor Standards Administration

1. What does this program do?

The Wage & Hour program responds to thousands of calls, emails and letters from employers and workers in Missouri who inquire about their responsibilities and rights under Missouri's Wage and Hour Laws. However, the Division of Labor Standards is not authorized by law to pursue an employees wage claim in court. Information is provided to those individuals seeking such assistance and provides educational outreach training.

Program Name: Prevailing Wage

Program is found in the following core budget(s): Division of Labor Standards Administration

1. What does this program do?

This program establishes the lowest wage rate that must be paid to workers on public works construction projects in Missouri, such as bridges, roads, and government buildings. The prevailing wage rate differs by county and for different types of work. Communication with interested parties occurs daily to assist in achieving voluntary compliance. The Division provides notice of these prevailing wage rates to public bodies each year in an Annual Wage Order, and to the Missouri State Highway and Transportation Commission in the form of the General Wage Order. The Division's enforcement of the prevailing wage supports worker health and pension benefits, increases general revenue, supports apprenticeship training, lowers occupation injuries, and ensures that construction is a highly trained occupation.

2. CORE DESCRIPTION

The On-Site Safety and Health Consultation Program is 90% funded by the Occupational Safety and Health Administration (OSHA) with a 10% required State match, previously taken from General Revenue, last year the funding was changed to Workers' Compensation (0652). The program provides a state administered, no-cost consultative service for assisting Missouri's small employers in achieving compliance with OSHA's safety and health standards. The program assists employers in avoiding federal fines and penalties and in providing a healthful and hazard-free place of employment for Missouri workers. This ultimately assists in reducing occupational accidents and illnesses. Occupational safety and health consultants visit workplaces and assist employers with safety and health hazard recognition, evaluation and control at their actual work facility. The program also informs employers of overall program safety and health management techniques and provides safety and health employee training designed to control hazards at the worksite.

In FY 2007, the program saved the businesses it served approximately \$3.3 million dollars in possible OSHA fines for serious hazards.
 In FY 2008, the program saved the businesses it served approximately \$2.8 million dollars in possible OSHA fines for serious hazards.
 In FY 2009, the program saved the businesses it served approximately \$3.7 million dollars in possible OSHA fines for serious hazards.
 In FY 2010, the program saved the businesses it served approximately \$3.6 million dollars in possible OSHA fines for serious hazards.

2. CORE DESCRIPTION

The Mine Safety and Health Training Program is 80% funded by the federal Mine Safety and Health Administration (MSHA) with a 20% required State match, previously this had come from General Revenue, last year this was changed to the Workers' Compensation Fund (0652). The program provides the new miner with the initial regime of safety and health training courses, first aid, cardiopulmonary resuscitation, mine rescue, miner's rights and Hazards Associated with the Task Assigned. These are the tools a miner must have before he or she is allowed to start work. Each year thereafter, the miner must receive an eight hour refresher course of those same topics and any topic that is necessary to stop a trend of accidents, injuries or fatalities. These topics are site specific and tailored to the type and scope of the mining operation. The training is mandated by the Mine Act of 1977, Title 30 Code of Federal Regulations Parts 46, 48, 49, 56/57, 71, and 75.

Department of Labor and Industrial Relations**Program Name: Mine Safety and Health Training****Program is found in the following core budget(s): Mine Safety and Health Training****1. What does this program do?**

This program trains and retrain miners in the practice of implementing safe and healthy working habits in the mining workplace. Each miner in Missouri has to be compliant in the training rules and regulations of the Mine Safety and Health Administration (MSHA) to be able to work in the mine. Each miner must receive an initial regimen of safety and health training and an annual refresher thereafter. Program instructors travel to the mine site, conduct a safety and health audit, prepare lesson plans that are site specific and correspond to the training plan of the company and then present the training topics to the miners. The program aids in the reduction of accidents, injuries and fatalities and assists mine owners in avoiding costly fines and penalties from the federal Mine Safety and Health Administration (MSHA).

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

This program is federally mandated under CFR 30 Parts 46, 48, 49, 56, 57 and 75 and Section 293.520 RSMo.

3. Are there federal matching requirements? If yes, please explain.

Yes, this program is a 80% federal/20% state match.

4. Is this a federally mandated program? If yes, please explain.

MSHA requires training be provided under the Mine Act of 1977 or the mine could be closed down.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

*Expenditures based on actual annual Mine Safety Training Grant.

6. What are the sources of the "Other " funds?

Workers' Compensation (0652)

7a. Provide an effectiveness measure.

Note: This is a new measure in fiscal year 2009; therefore no historical data is available.

7b. Provide an efficiency measure.

The Mine Safety and Health Administration (MSHA) has a five year Strategic Plan and the programs funding is based on a three year grant period. In FY 08, the grant had a projection of \$64.27 per student for training due to the recommended class size and probable number of training requests. The actual amount was over the projected amount due to the cost of living increase.

2. CORE DESCRIPTION

Pursuant to Executive Order 05-16, the Labor and Industrial Relations Commission had assumed all the duties previously assigned to the State Board of Mediation (SBM) in administering the Public Sector Labor Law. In FY 2008, this Executive Order was rescinded by Executive Order 07-28, restoring those duties to the SBM. In connection with its duties, the SBM holds hearings, determines appropriate bargaining units of many public employees and conducts elections to determine whether and by which unions such employees will be represented, and renders written opinions and certifications.

2. CORE DESCRIPTION

The workers' compensation system ensures that an employee who sustains an injury receives medical treatment, wage loss replacement benefits, disability benefits and death benefits, as required by law. The Division provides various options to resolve disputes that may arise between the injured employee and the employer/insurer, including adjudication services through its eight offices. The Division regulates individual and groups/trusts who have been authorized to self-insure their workers' compensation obligations, investigates allegations of workers' compensation fraud and noncompliance. At the requisition of the Division, warrants on the state treasurer for the payment of compensation and benefits from the second injury fund (SIF) are issued. The Division also administers the Tort Victims' Compensation program.

The Division is transferring \$50,000 into the Kid' Chance Scholarship Fund as required by HB 2191, Section 173.258, RSMo.

HB 583 enacted by the General Assembly in 2007 allows parties aggrieved by Department of Public Safety's Crime Victims' Compensation Program decisions to request a hearing before one of the Division's ALJs.

PROGRAM DESCRIPTION

Department of Labor and Industrial Relations

Program Name: Workers' Compensation

Program is found in the following core budget(s): Workers' Compensation Administration

1. What does this program do?

The workers' compensation program processes all reports of job-related injuries and formal claims for compensation filed with the Division of Workers' Compensation (Division) under Missouri's workers' compensation law. The program also provides mediation services to resolve disputed issues between an employee and an employer or insurer. It administers the rehabilitation of seriously injured workers, resolves disputes concerning the reasonableness of medical fees and charges, reviews and approves applications by employers or group trusts for self-insurance authority, investigates allegations of workers' compensation fraud and noncompliance, and processes benefit payments from and collection of surcharge payments to the Second Injury Fund.

This program also administers the Tort Victims' Compensation program. The Tort Victims program processes applications for benefits and issues administrative determinations that may compensate people who have been physically injured due to the negligence or recklessness of another and who have been unable to obtain partial or full compensation pursuant to a court judgment because the party at fault (the "tortfeasor") had no insurance, has filed for bankruptcy, or for other reasons as specified by law. This program also administers the Line of Duty Compensation Fund, which provides a \$25,000 benefit to the estate of any Public Safety Officer killed in the line of duty.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

This program is mandated under Chapter 287 RSMo.

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

2. CORE DESCRIPTION

The Tort Victims' Compensation Fund compensates people who have been injured due to the negligence or recklessness of another, such as in a motor vehicle collision, and who have been unable to obtain full compensation because the party at fault (the "tortfeasor") had no insurance, or inadequate insurance, or has filed for bankruptcy, or for other reasons specified in the law.

Tort Victims' Compensation Fund revenue is generated from money paid as punitive damages in civil lawsuits in Missouri. Under the law, payments to eligible claimants are suspended until the balance of the fund exceeds \$100,000. Any sum awarded that cannot be paid due to lack of funds appropriated for the payment of claims of uncompensated tort victims does not constitute a claim against the state. Due to the unreliability of the funding source, there may not be a sufficient amount to pay benefits in a given year. An "E" is needed since the amount of any awarded amount is also unknown.

As described in Section 537.650 RSMo, (previously Section 477.650, RSMo) 26% of the Court Awards received is to be transferred to the Basic Civil Legal Services Fund (Fund 0757).

The Line of Duty Compensation Fund is enacted through sections 287.090 and 287.243 RSMo after having been passed in HB 580. The Line of Duty Compensation Fund (0939) is to provide a \$25,000 benefit to the family of emergency personnel killed in the line of duty.

This bill was signed into law on June 19, 2009. It had an emergency clause making it applicable to FY 2010; as a result, the Division has requested supplemental appropriations to make the benefit payments and to provide funding via transfer. The current fund balance is \$0. As authorized in the statute section, the Division is requesting a General Revenue Fund Transfer of up to \$175,000 to provide the monies necessary to pay any benefits which might be filed and determined to be eligible in the absence of the receipt of any other monies, including voluntary contributions, gifts, or bequests to the fund. No amounts would be transferred unless needed and only in the amount necessary to pay benefits.

2. CORE DESCRIPTION

When an employee sustains a compensable work injury and the combined effect of the work-related injury and prior disability results in permanent total disability, or increased permanent partial disability, the employer at the time of the last injury, is liable only for compensation due from the most recent injury. The remaining compensation to the employee is paid from the Second Injury Fund (SIF). The Missouri State Treasurer's Office is the custodian of the SIF and the Missouri Attorney General's Office provides legal services. The benefits paid from SIF are disability, death, physical rehabilitation, second job wage loss benefit, and medical bills. The SIF is financed by a surcharge on employers' workers' compensation premiums and equivalent premiums for self-insured employers. Per SB1 &130 in 2005, the surcharge rate has been capped at 3% and can be reduced or suspended when the balance in the SIF exceeds a certain amount.

The following agencies also have appropriations from the Second Injury Fund: OA \$ 1,682,134 Attorney General's Office \$ 3,137,816 (FY11)

Since the Dept is statutorily required to pay benefits awarded, we are requesting an open-ended appropriation.

2. CORE DESCRIPTION

The Division of Employment Security (DES) administers the state's unemployment insurance (UI) program. The UI Program provides a measure of protection against loss of wages for workers who become unemployed through no fault of their own. The UI benefits paid to eligible workers assists Missouri's economy during periods of economic downturn by helping stabilize the level of consumer purchasing power. As a part of the state UI program, the DES contributions staff collects the state UI tax and wage item data regarding the amount of wages paid to each individual reportable worker. The funds included in this appropriation also finance the administrative cost of operating various related federal programs, such as Disaster Unemployment Assistance (DUA) and Trade Adjustment Assistance (TAA).

During the current economic downturn, in addition to FTEs, DES has hired back many retirees as well as other part-time workers to help in their workload. Missouri's unemployment rate for August 2010 was 9.3 percent, which is up 3.2 percentage points or approximately 52 percent from the July 2008 unemployment rate of 6.1 percent.

The Federal Stimulus Funds used by DES can be found in HB 16.210.

The administrative costs associated with this core request are included in the division's administrative core request.

3. PROGRAM LISTING (list programs included in this core funding)

2. CORE DESCRIPTION

The funds in this appropriation enable the Division of Employment Security (DES) to make necessary building repairs and other expense & equipment purchases related to the maintenance of the three division owned buildings (Jefferson City, Kansas City & Springfield). The funds in this appropriation also provide supplemental support to the DES for costs not covered by the federal grant. In addition, appropriation authority is provided in this core request allowing the DES to collect the necessary funds to pay interest due to the federal government that has accrued on outstanding Title XII advances as well as allowing the division to collect the necessary funds to make payments on credit instruments issued by the Board of Unemployment Fund Financing (BUFF), if any.

Due to current economic conditions, the DES expects to borrow funds from the federal government to make unemployment insurance (UI) benefit payments. This federal money does not go through the state treasury; however, the interest on this money must be paid by state funds from assessments levied on employers. The DES requests establishment of a \$1 estimated appropriation for this purpose.

- NOTES:**
- (1) In FY2008 the federal loan was completely repaid and the final Federal Interest Payment of \$4,481,785.88 was made; excluding this payment, expenditures were \$834,650.61. In Budget FY2009, the Federal Interest Payment Approp was not requested, resulting in a Core Reduction of \$6,000,000.
- (2) The Actual Expenditures went down in FY2010 largely due to the fact that payment to part-time workers, formerly from Special ES, was shifted to other available Fed Funds.

2. CORE DESCRIPTION

This appropriation provides the authority for the Division of Employment Security (DES) to intercept state income tax refund checks for the purpose of repaying unemployment insurance (UI) benefit overpayments and delinquent employer contributions. This aids the DES in collecting monies due to the Unemployment Compensation Trust Fund. Without this collection method, funds for the payment of UI benefits would decrease. The administrative costs associated with this core request are included in the division's administrative core request.

3. PROGRAM LISTING (list programs included in this core funding)

Administration of this program may be found under Employment Security Administration Core.

PROGRAM DESCRIPTION

Department of Labor and Industrial Relations

Program Name: Prevention/Elimination of Illegal Discrimination

Program is found in the following core budget(s): Mo Commission on Human Rights Administration

1. What does this program do?

This program provides equitable and timely resolutions of discrimination claims through enforcement of the Missouri Human Rights Act. Allegations of discrimination are reviewed and investigated and a determination is made whether there is probable cause to believe discrimination has occurred. If discrimination is found, conciliation is attempted. If the complaint is not resolved in conciliation, a public hearing may take place to adjudicate the matter.

The Missouri Human Rights Act seeks to eliminate discrimination in the workplace, public accommodations and housing. Discrimination can be based on race, color, religion, national origin, ancestry, sex, physical/mental disability, age and familial status. The program also offers training to public and private employers, organized groups, school districts and housing providers on topics such as sexual harassment prevention, cultural sensitivity, disability sensitivity, and fair housing information.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

This program is mandated under the Missouri Human Rights Act, Chapter 213; Title VII and Title VIII of the U.S. Civil Rights Law.

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No, however the MO Commission on Human Rights has worksharing contracts with the Equal Employment Opportunity Commission (EEOC) and Department of Housing and Urban Development (HUD).

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.
